Safe Patient and Family Centered Care

An innovative approach to planning, delivery, and evaluation of care.

Featured Speaker
Terry Griffin, RNC, MS, NNP
St. Alexius Medical Center in Hoffman Estates, IL

Health professionals across all care environments can advance the practice of patient and family centered care.

This program will focus on challenges and opportunities to make sustainable gains in achieving this worthwhile goal in your environment of care.

There is no fee for this presentation, thanks to generous support from The March of Dimes.

working together for stronger, healthier babies
